

Rustoiu-Csavdari, Alexandra; Nickel, Ulrich

Analytical potential of the reaction between p-phenylenediamines and peroxodisulfate for kinetic spectrophotometric determination of traces of ascorbic acid

Analytical and Bioanalytical Chemistry (2002), 374(6), 1113-1120

Nickel, Ulrich; Peris, Carlos; Ramminger Ute

A radical chain mechanism coupled to autocatalysis. The oxidation of N,N-dimethyl-p-phenylenediamine by peroxodisulfate

Journal of Physical Chemistry A (2002), 106(15), 3773-3786

Nickel, U.; Liu, C.; Chen, Y.

Determination of the surface area of silver sols based on the rate of the electrocatalytic oxidation of N,N-dimethyl-p-phenylenediamine with chloropentamine-cobalt(III) chloride

Colloids and Surfaces, A: Physicochemical and Engineering Aspects (2001), 183-185, 575-581

Ramminger, Ute; Nickel, Ulrich; Geide, Bernd

Enhancement of an insufficient dye-formation in the ninhydrin reaction by a suitable post treatment process

Journal of Forensic Sciences (2001), 46(2), 288-293

Nickel, Ulrich; zu Castell, Amelie; Poepl, Karin; Schneider, Siegfried

A silver colloid produced by reduction with hydrazine as support for highly sensitive surface-enhanced Raman spectroscopy

Langmuir (2000), 16(23), 9087-9091

Diekers, Michael; Hirsch, Andreas; Luo, Chuping; Guldi, Dirk M.; Bauer, Klaus; Nickel, Ulrich

Synthesis, cyclic voltammetry and photophysical properties of a bridged o-phenylenediamine-C60 Dyad

Organic Letters (2000), 2(18), 2741-2744

Sauer, G.; Nickel, U.; Schneider, S.

Preparation of SERS-active silver film electrodes via electrocrystallization of silver

Journal of Raman Spectroscopy (2000), 31(5), 359-363

Lunar, Loreto; Silicia, Dolores; Rubio, Soledad; Pérez-Bendito, Dolores; Nickel, Ulrich

Degradation of photographic developers by Fenton's reagent: condition optimization and kinetics for metal oxidation

Water Research (2000), 34(6), 1791-1802

Lunar, L.; Sicilia, D.; Rubio, S.; Pérez-Bendito, D.; Nickel, U.

Identification of metal degradation products under Fenton's reagent treatment using liquid chromatography-mass spectroscopy

Water Research (2000), 34(13), 3400-3412

Bergthaller, Peter; Nickel, Ulrich

Some unexpected observations in cyclic voltammetric investigations of chromogenic coupling

IS&T's PICS Conference, Annual Conference [of the Society for Imaging Science and Technology], 51st, Portland, Oreg., May 17-20, 1998, 334-335. Publisher: Society for Imaging Science and Technology, Springfield

Gliemann, H.; Nickel, U.; Schneider, S.

Application of silver halide paper for surface-enhanced Raman studies of organic compounds

IS&T's PICS Conference, Annual Conference [of the Society for Imaging Science and Technology], 51st, Portland, Oreg., May 17-20, 1998, 287-290. Publisher: Society for Imaging Science and Technology, Springfield

Nickel, Ulrich; Klein, Ingrid; Lachenmayr, Peter; Schmidt, Birgit

Methods for the study of the kinetics of photographic processes. III. Oxidative dye formation in solution

Journal of Information Recording (1997), 23(5), 415-436

Nickel, U.; Halbig, P.; Gliemann, H.; Schneider, S.

Charge transfer like complexes of organic dyes adsorbed at colloidal silver studied by cyclic voltammetry

Berichte der Bunsengesellschaft (1997), 101(1), 41-49

Chen, Sihai; Nickel, Ulrich

Synthesis of hybrid metal-semiconductor ultrafine particles. Photochemical deposition of silver on a ZNO colloid surface

Journal of the Chemical Society, Faraday Transactions (1996), 92(9), 1555-1562

Chen, Sihai; Ren, Xinmin; Nickel, Ulrich

Photoreactions on the surface of ZnO ultrafine particle under UV irradiation

Ganguang Kexue Yu Guang Huaxue (1996), 14(1), 59-64

Chen, Sihai; Nickel, Ulrich

Controllable exciton bleaching and recovery observed in ZnO-Ag hybrid nanometer-sized particles

Chemical Communications (Cambridge) (1996), (2), 133-134

Schneider, S.; Grau, H.; Halbig, P.; Freunscht, P.; Nickel, U.

Stabilization of silver colloids by various types of anions and their effect on the surface-enhanced Raman spectra of organic dyes

Journal of Raman Spectroscopy (1996), 27(1), 57-68

Schneider, Siegfried; Halbig, Peter; Grau, Harald; Nickel, Ulrich

Reproducible preparation of silver sols with uniform particle size for application in surface-enhanced Raman spectroscopy

Photochemistry and Photobiology (1994), 60(6), 605-610

Salem, I.; El-Sheikh, M. Y.; Zaki, A. B.; Nickel, U.

Iron(II)-bis(salicyladimine) Schiff-base complexes catalyzed decomposition of hydrogen peroxide

International Journal of Chemical Kinetics (1994), 26(9), 955-962

Nickel, Ulrich; Chen, Yao-Hong; Schneider, Siegfried; Silva, Maria I.; Burrows, Hugh D.; Formosin-ho, Sebastiao J.

Mechanism and kinetics of the photocatalyzed oxidation of p-phenylenediamines by peroxodisulfate in the presence of tri-2,2'-bipyridylruthenium(II)

Journal of Physical Chemistry (1994), 98(11), 2883-2888

Chen, Yao Hong; Nickel, Ulrich; Spiro, Michael

Electrochemical study of heterogeneously catalyzed reaction between N,N-dimethyl-p-phenylenediamine and CoIII(NH₃)₅Cl₂⁺ at monometallic and bimetallic surfaces of silver and gold

Journal of the Chemical Society, Faraday Transactions (1994), 90(4), 617-623

Nickel, U.; Liu, Chun-Yan

Methods for the study of the kinetics of the chemistry of photographic processes. I. Simulation of the photographic bleach process at a rotated silver disk

Journal of Information Recording materials (1993), 21(3), 253-267

Nickel, Ulrich; Babinsky, Ute; Ehresmann, Bernd; Meckl, Heinz

Methods for the study of the kinetics of the chemistry of photographic processes. II. Determination of the kinetics of the bleach process at small film disks

Journal of information Recording Materials (1993), 21(3), 269-280

Leuschner, R.; Ahne, H.; Marquardt, U.; Nickel, U.; Schmidt, E.; Sebald, M.; Sezi, R.

Patterning of organic layers using negative and positive working Top-CARL process

Microelectronic Engineering (1993), 20(4), 305-319

Nickel, U.

An explanation of the development and bleaching process by means of mixed potential theory

Journal of Information Recording Materials (1993), 20(5), 429-438

Nickel, U.; Grehm, G.; Liu, C. Y.

Studies of the mechanism and the kinetics of the photographic bleach process. I. Simulation of the bleach process on a rotated silver disk and determination of the bleach rate

Journal of Imaging Sciences and Technology (1993), 37(3), 286-295

Chen, Yao Hong; Nickel, Ulrich

Superadditive catalysis of homogeneous redox reactions with mixed silver-gold colloids

Journal of the Chemical Society, Faraday Transactions (1993), 89(14), 2479-2485

Schneider, Siegfried; Grau, Harald; Halbig, Peter; Nickel, Ulrich

Kinetic effects in surface enhanced Raman spectroscopy: does it have potential as an analytical tool?

Analyst (Cambridge, United Kingdom) (1993), 118(6), 689-694

Farchmin, Robert O.; Nickel, Ulrich; Spiro, Michael

Heterogenous catalysis in solution. 26. Electrochemical and kinetic studies of the reaction between N,N-dimethyl-p-phenylenediamine and chloropentaamminocobalt(III) at platinum, gold and silver surfaces

Journal of the Chemical Society, Faraday Transactions (1993), 89(2), 229-234

Liu, Chunyan; Nickel, Ulrich

Electrochemical studies on the bleaching process. II. Effect of the oxidation of metallic silver with Fe(III)-complexes

Ganguang Kexue Yu Guang Huaxue (1992), 10(4), 289-296

Nickel, Ulrich; Haase, Erika; Thormann, Brigitte

The reduction mechanism of peroxodisulfate, studied by its reaction with p-phenylenediamines

Zeitschrift fuer Physikalische Chemie (1991), 170(1-2), 159-183

Nickel, Ulrich; Klein, Ingrid

Some investigations into the photographic dye formation process. I. A simple spectrophotometric procedure for the determination of the rate constants of the coupling process in homogeneous solution

Journal of Imaging Science (1991), 35(3), 151-157

El-Sheikh, Mohamed, Y.; Ashmawy, Fathy M.; Salem, Ibrahim A.; Zaki, Ahmed B.; Nickel, Ulrich

Catalytic decomposition of hydrogen peroxide in the presence of N,N'-bis(salicylidene)-o-phenylenediamineiron(III) sorbed on to Dowex-50W resin

Transition Metal Chemistry (Dordrecht, Netherlands) (1991), 16(3), 319-323

Liu, Chunyan; Nickel, Ulrich

Electrochemical study on the redox reaction between iron(III) EDTA and silver

Ganguang Kexue Yu Guang Huaxue (1990), (1), 41-48

Nickel, U.; Haase, E.; Liu, C. Y.

Kinetics of the oxidative silver chloride formation on silver with pentaamminechlorocobalt(II)trichloride studied by galvanostatic reduction of the chemically formed silver halide

Berichte der Bunsen-Gesellschaft (1990), 94(7), 726-730

Nickel, Ulrich; Thormann, Brigitte

Determination of hexacyanoferrate based on its catalytic influence on the oxidation of p-phenylenediamines by iron(III)

Fresenius' Journal of Analytical Chemistry (1990), 336(4), 316-319

Nickel, U.; Liu, C. Y.

The mechanism of the silver-catalyzed reaction between N,N'-dimethyl-p-phenylenediamine and chloropentaamminocobalt(III) [CoIII(NH3)5Cl]2+

Journal of Imaging Science (1990), 34(1), 8-14

Sauer, Alexandra; Wasgestian, Fritz; Nickel, Ulrich

Electrochemical generation and properties of the p-dinitrobenzene radical anion in N,N-dimethylformamide

Bulletin of the Chemical Society of Japan (1989), 62(8), 2688-2692

Nickel, Ulrich; Liu, Chunyan; Lachenmayr, Peter; Schneider, Maria

Mechanism of some colloid-catalyzed quasi-homogeneous organic redox reactions

Bulletin de la Societe Chimique de France (1988), (2), 308-312

Goez, M.; Jaenicke, W.; Nickel, U.

An investigation of electron transfer reactions between aromatic and quinoid systems

Berichte der Bunsen-Gesellschaft (1988), 92(4), 459-467
